TAMPERE (170 000 inh.) is a centre for industry, sports, and culture. Tampere is also a popular tourist centre. The best known attractions are, for example, Särkänniemi Recreation Centre with its amusement park, children's zoo, observation tower (168 m), aquarium, and planetarium, the unusual housing area on Pispala Ridge, the revolving auditorium of Pyynikki Summer Theatre, Pyynikki Ridge, as well as many churches and museums. Both Silverline and Poet's way boats stop here. On the cultural front Tampere is an active city, and many of the Finnish most respected modern writers come from here.

On its bicentennial anniversary Tampere will be joined to the international jet traffic by the new Tampere—Pirkkala airport.
